Yogyakarta, ID

**Zaid Al Lalikai**  
Cilacap, ID

**D'Rollins William**  
Makassar, ID

**Mirza Ramadhana**  
City name, ID

# Objective

TEAM 5 IS DEDICATED TO  
DELIVERING HIGH-QUALITY  
RESULTS.

Our goal is to collaborate and build a functional, well-structured, and visually appealing website that showcases our understanding of: HTML, Collaboration with GitHub, and Project structure.

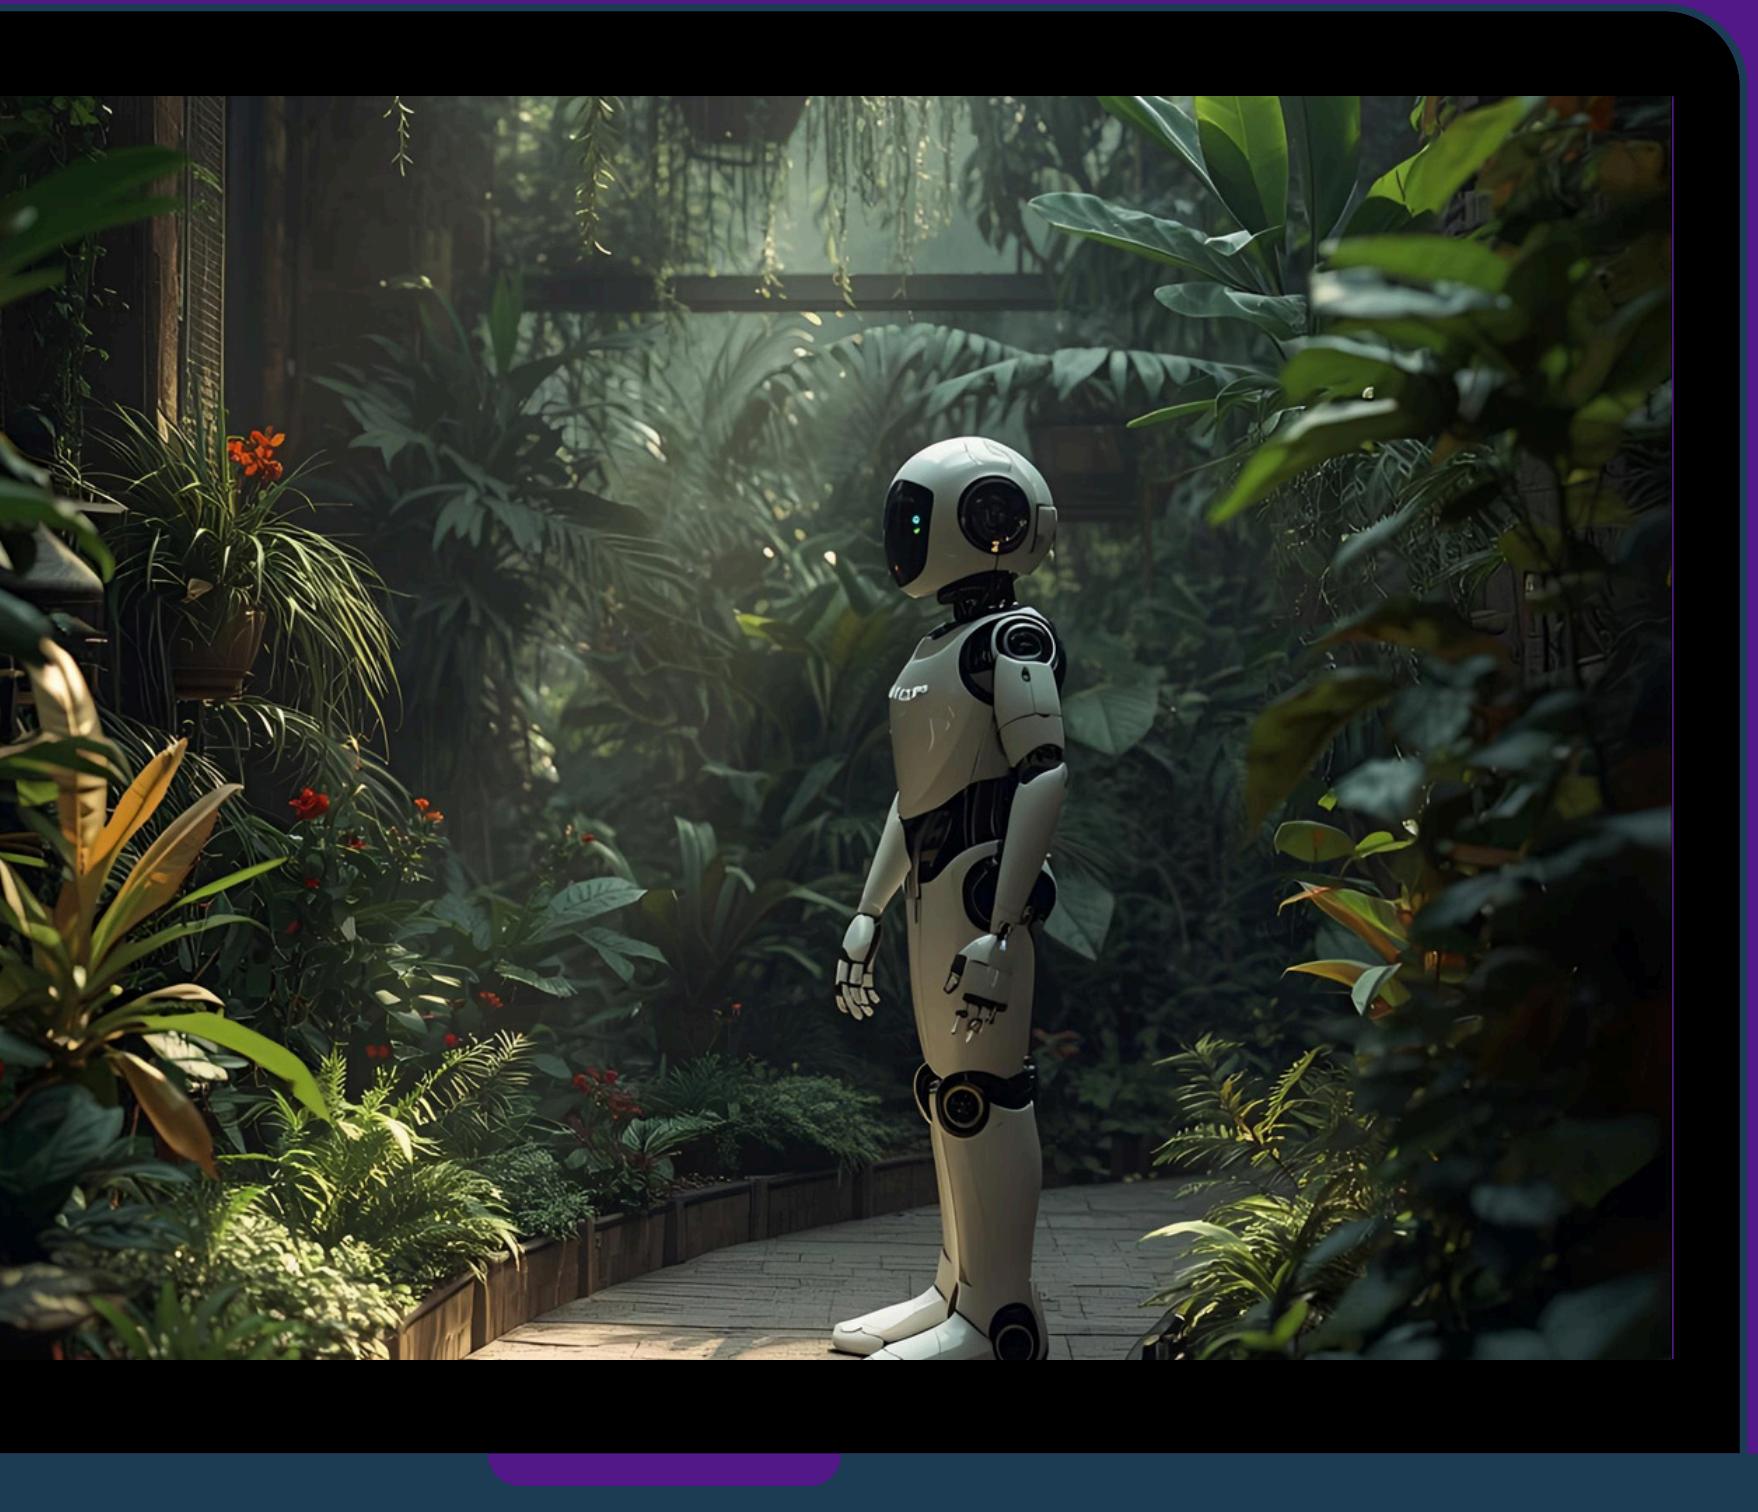

# PROJECT SCOPE

The project focuses on creating a Website Portfolio that includes three main pages.

- **Main Page:** Developed by Livia, introduces the team members and provides an overview of their profiles along with the shared portfolio.
- **Form Page:** Created by D'Rollins, collects contact details through both the contact and download forms.
- **Download Page:** Handled by Zaid, provides access to team's portfolio file.

Together, these pages demonstrate the team's understanding of basic web structure, HTML, and collaborative workflows using GitHub.

# Tools We Use

## VISUAL STUDIO CODE (VS CODE)

A lightweight, powerful code editor used to write HTML script. It supports extensions, integrated terminals, and Git features that make development and debugging easier.

## GITHUB

A cloud-based platform for hosting and sharing code repositories. It enables version control, collaboration, and team coordination through commits, branches, and pull requests.

## COMMAND PROMPT (CLI)

A text-based interface that lets you execute commands directly to navigate folders, manage files, and use Git commands without relying on graphical tools.

## BROWSER FOR TESTING

Browsers are used to preview and test the website in real time. They help check layout, responsiveness, and ensure that links and images display correctly.

# What People Say About

## TEAM5\_MADRID

**"Team5\_Madrid impressed everyone with their strong collaboration and clear communication. Each member contributed meaningfully to every stage of the project."**

-Mark Zuckerberg, startup founder

**"A motivated team that combines creativity and structure. Their project demonstrated real teamwork and attention to detail."**

-Howard Stark, senior manager

**"Working with Team5\_Madrid was a great experience — organized, proactive, and always willing to learn and improve".**

-Pablo Escobar, artist
